

Bonded Sealing Washers

Metric Range

• Material:

Base metal: Cold Rolled Close Annealed (CRCA) Steel
Rubber: Nitrile (Shore hardness up to 75)

• Temperature range:

-30°C to 100°C

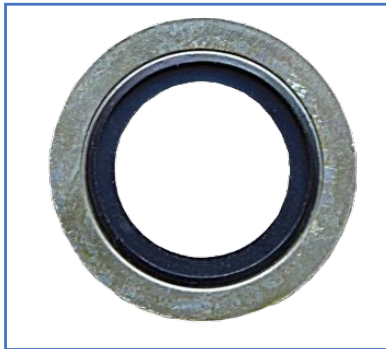

• Features:

Good resistance to:

- Mineral oils
- Domestic gas
- Fuels
- Aliphatic solvents
- Water up to +70°C

• Example Applications:

Bonded seal washers are used to seal bolts and prevent leakage from hydraulic fittings, pipe joints and valve bodies. Tend to be used in applications that require a stronger seal than normal washers.

Item No.	Size	Outer diameter (mm)	Thickness (mm)
KW250	M10	16	1.5
KW251	M12	18	1.5
KW252	M14	21	1.5
KW253	M16	26	1.5
KW254	M18	26	1.5
KW255	M20	28	1.5
KW256	M22	30	1.5
KW257	M24	32	1.5
KW260	M10	16	2.0
KW261	M14	21	2.0
KW262	M17	24	2.5
KW263	M22	28	2.5
KW264	M24	32	2.5
KW265	M28	35	2.5
KW266	M33	42	2.5
KW268	M18.7	26	2.0
