

# Brake Pressure Test Kit

TL406

## • Description:

The Brake Pressure Test Kit allows you to test the hydraulic brake pressure directly on the wheel brake cylinder, brake caliper, master cylinder, or hydraulic pump unit on Teves ABS systems with a pressure accumulator, providing you with a complete and accurate understanding of your vehicle's brake system performance.

Equipped with two high-quality pressure gauges, each with a hose and a range of 0 - 3000psi, this kit is designed to provide precise measurements that you can rely on.

The kit also includes an array of fittings and adaptors, such as a Teves ABS adaptor with pressure accumulator, 90 and 45-degree angle adaptors, and various other fittings in different sizes.

## • Contents:

- 2 pressure gauges with hose 0 - 3000psi
- 1 adaptor for Teves ABS with pressure accumulator
- 1 angle adaptor 90 degree
- 1 angle adaptor 45 degree
- 2 fittings 7/16" - 24 mm
- 2 fittings 1/4" - 28 mm
- 2 fittings 3/8" - 24 mm
- 2 fittings 5/16" - 24 mm
- 2 fittings 7/16" - 20 mm
- 2 fittings M7 x 1.0
- 2 fittings M8 x 1.25
- 2 fittings M10 x 1.5
- 2 fittings M10 x 1.0
- 1 thread adaptor

Hose end connector thread: 20 TPI by 7/16" UNF
